

Greetings from Tyler,

You are all aware by now of the attempt by a [Muslim extremist to blow up a Delta airliner](#). The attack is believed to be in retaliation for the US bombing of an Al-Qaida stronghold in Yemen just yesterday. Thank be to God it didn't succeed. The massacre at Fort Hood and now this incident during the landing approach of the Delta airliner in Detroit shows that Muslim terrorists intend to continue to target unsuspecting Americans. It appears both Yemen and Nigeria may be implicated in this incident.

On a brighter note, thank goodness we are on the backside of [December 25<sup>th</sup>](#). The monthly letter is being printed and will be along shortly. Television responses number just over five-hundred for the last week and the first few days of this week.

We had a brief snow blizzard yesterday with high winds and freezing temperatures last night. I know many of you have seen much worse.

All is well here at HQ, and we wish all of you a good Sabbath.

Mark Armstrong
