

2 April 2010

Greetings from Tyler,

Mr. Stan Roberts and Mr. Tony Brazil did a beautiful job conducting the Passover this year, and we had a wonderful First Day of Unleavened Bread as well, followed by a bountiful pot-luck meal and fine fellowship. And, many in the congregation assembled in the private room of a fine local restaurant for the night to be remembered, memorializing Israel's departure from Egypt.

As for world events, the direction our nation is taking, the bleak outlook for [Europe's currency](#), [Israel's diplomatic limbo](#), [the nuclear threat from Iran](#), [Russia's romance with enemies of the U.S.](#), [trouble for the Vatican and the Pope](#), we may all be near overload with the flood of prophetically relevant developments. And, most all of that is addressed in some detail in the letter that will arrive momentarily.

One thing that is more unavoidably apparent than ever is the emotional dividing of people, based on race, religion, and the use and abuse of power. Most of it is just below the radar of the mass media, but tensions are mounting and it's becoming apparent that we're all operating in the environs of a powder keg.

Murray wrote an [interesting update](#) on some of the economic and social issues plaguing Australia. The insanities of political correctness seem to have infected all western nations, as you'll see.

The GTA telecast this week brought in 430 requests, with two hundred fourteen new contacts. Have a great Sabbath and Last Day of Unleavened Bread. Please pray for our nation, for Israel and for the brethren.

Thanks to you all,

Mark Armstrong
